#### **1. NATURE AND CONTINUANCE OF OPERATIONS**

Defiance Silver Corp (“the Company” or “Defiance”) was incorporated on July 19, 2007 under the Business Corporations Act of the Province of British Columbia. The Company’s principal business is the acquisition and exploration of exploration and evaluation assets. The Company’s registered and records office is at Suite 2900 - 550 Burrard Street, Vancouver, BC, V6C 0A3. The Company is listed on the TSX Venture Exchange under the symbol “DEF”.

The Company’s condensed consolidated interim financial statements are presented in Canadian dollars which is the functional currency.

At the date of these condensed consolidated interim financial statements, the Company has not been able to identify a known body of commercial grade ore on any of its exploration and evaluation assets. The ability of the Company to realize the costs it has incurred to date on these exploration and evaluation assets is dependent upon the Company being able to identify a commercial ore body, to finance its exploration costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the exploration and evaluation asset. To date, the Company has not earned revenues and is considered to be in the exploration stage.

#### Going Concern of Operations

These condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing. Management is actively targeting sources of additional financing through other business and financial transactions which would assure continuation of the Company’s operations and exploration programs. At March 31, 2022, the Company had cash of \$13,619,521 (June 30, 2021 - \$20,831,725) and working capital of \$13,421,487 (June 30, 2021 - \$20,292,881). The Company’s continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. The Company estimates it has sufficient working capital to continue operations for the upcoming year.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. The situation is dynamic and the ultimate duration and magnitude of the impact on the economy and capital markets are not known at this time.

## 2. BASIS OF PREPARATION

### Statement of Compliance

These condensed consolidated interim financial statements, including comparatives have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”).

The financial statements were authorized for issue by the Audit Committee and Board of Directors on May 25, 2022.

The condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The preparation of these condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the period. Actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

### *Critical Accounting Estimates*

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

1. *Recoverability of receivables and value added tax:* which are included in the consolidated statements of financial position. Management has determined that receivables are recoverable given management’s experience in realizing receivables and refunds of value added tax.
2. *Estimating useful life of equipment:* Depreciation of equipment is charged so as to write down the value of those assets to their residual value over their respective estimated useful lives. Management is required to assess the useful economic lives and residual values of the assets such that depreciation is charged on a systematic basis to the current carrying amount. The useful lives are estimated having regard to such factors such as asset maintenance, rate of technical and commercial obsolescence, and asset usage. The useful lives of key assets are reviewed annually.
3. *Carrying value and the recoverability of exploration and evaluation assets:* Management has determined that exploration, evaluation and related costs incurred which have been capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, scoping and prefeasibility studies, accessibility of facilities and existing permits.
4. *Valuation of share-based compensation and brokers’ warrants:* Management uses the Black-Scholes Pricing Model for valuation of share-based compensation and brokers’ warrants, which requires the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company’s results and equity reserves.

#### 2. BASIS OF PREPARATION (Cont'd)

##### *Critical Accounting Estimates (Cont'd)*

5. *Income Taxes:* In assessing the probability of realizing deferred tax assets, management makes estimates related to the expectation of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that the tax position taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

While management believes that these estimates are reasonable, actual results could differ from those estimates and could impact future results of operation and cash flows.

##### *Critical Accounting Judgements*

The following are key assumptions concerning the future and other key sources of estimation uncertainty that have significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

1. *Going concern of operations:* The financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The assessment of the Company's ability to source future operations and continue as a going concern involves judgement. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. If the going concern assumption is not appropriate for the financial statements, then adjustments would be necessary in the carrying value of assets and liabilities, the reported revenue and expenses and the statement of financial position classifications used (Note 1).
2. *Determination of functional currency:* The Company determines the functional currency through the analysis of several indicators such as expenses and cash flow, financing activities, and frequency of transactions with the reporting entity.

##### Investment

This represents guaranteed investment certificates held with the bank as collateral for the Company's credit cards issued to key personnel.

##### Reclamation bond

The Company has a deposit in place with a United States bank as security for a reclamation bond on former exploration and evaluation assets located in the United States. The reclamation bond is required by local jurisdictions at the time exploration activities commenced on the properties and do not represent a rehabilitation provision. Interest on the certificates of deposit with the United States bank is paid on a periodic basis to the Company.

#### 7. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral claims. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its interests are in good standing.

##### San Acacio Project

The Company entered into an option agreement on October 24, 2011, subsequently the subject of several amendments, with the Mexican owners (“the Vendors”) for an option to purchase a 100% interest in the San Acacio property consisting of 10 mining concessions and associated surface rights and tailings. The San Acacio property is located approximately 6.5 km north of the city of Zacatecas, Mexico.

The Company has paid US\$4,847,333 towards the agreement through March 31, 2022.

During the year ended June 30, 2020 the Company renegotiated and extended the terms of its San Acacio Silver Project option agreement by three years from September 27, 2020 to September 27, 2023. In addition, 80% of the option payments due before March 27 and June 27, 2020 were deferred as a part of this extension. The Company will make quarterly payments, over three years, to the property vendor. As a result of the amending agreement, the payment terms are as follows:

	Letter Of Intent Payment	Option Payment	Lease Payment	Interest Payment	Total
By September 27, 2012	USD 25,000	USD -	USD -	USD -	USD 25,000 (paid)

By September 27, 2018	-	600,000	150,000	-	750,000 (paid)
By September 27, 2019	-	600,000	200,000	107,600	907,600 (paid)
By September 27, 2020	-	500,000	100,000	-	600,000 (paid)
By September 27, 2021	-	400,000	283,334	86,063	769,397 (paid)
By September 27, 2022	-	400,000	283,333	76,063	759,396 (570,337 paid)
By September 27, 2023	-	400,000	283,333	66,063	749,396
On September 27, 2023	-	2,300,000	-	107,461	2,407,461
Total	USD 25,000	USD 5,750,000	USD 1,975,000	USD 443,250	USD 8,193,250

The property is subject to a 2.5% NSR payable to the vendors on production from the property. The Company will have the right to purchase the NSR at any time for US\$2,500,000 which will escalate with the official Mexican Inflation Index after a five-year period. Should the agreement be terminated prior to September 27, 2023 a break fee equal to 5% of the outstanding option balance shall be paid to the property vendor.

Following the first anniversary of the purchase of the Assets, the Company must make minimum annual royalty payments of US\$125,000. The minimum royalty commitment terminates in the event that the production royalty paid is equal to or higher than the equivalent to the minimum that would have been due during six consecutive months.

##### Surface rights agreements

In August 2014, the Company obtained authorization to temporarily occupy and explore certain land holdings on the San Acacio property. In order to keep the agreement in good standing, the Company is required to make semi-annual payments during the exploration phase and the development phase. The agreement will be valid for twenty years with the option to extend in the future.

On February 27, 2015, the Company entered into a Surface Rights Agreement with the Ejido called "Sauceda de la Borda", Municipality of Vetagrande, State of Zacatecas, for the right to occupy and perform exploration work on common use lands of such Ejido. The Company had the authorization to explore the surface of the property for a term of three years which could be extended for an additional three years at the Company's choice, by making annual advance payments and by paying a one-time fee on the execution of the agreement.

On February 26, 2018, the Company exercised its right to extend the term of the agreement above mentioned for an additional three years by making a one-time payment, and was required to make semi-annual payments. All required payments have been made.

On March 30, 2021, the Company entered into an Agreement to extend the Surface Rights Agreement with the Ejido called "Sauceda de la Borda", Municipality of Vetagrande, State of Zacatecas, where it was agreed that the Company could continue with its exploration works exclusively in the Ejido's lands for three additional years, being the Surface Rights Agreement valid until March 12, 2024. The Company is able to extend the Surface Rights Agreement for a term of three additional years, at the election of the Company, subject to the previous approval of the Ejido's assembly.

On August 13, 2021, the Company entered into a Temporary Occupancy and Right of Way Agreement in common use lands for exploration with the Rural Fractioning (Fraccionamiento) "Fraccionamiento Saucedá de la Borda", Municipality of Vetagrande, State of Zacatecas, in which the Company is authorized to temporarily use a certain part of its land, exclusively for mining exploration works. This agreement is valid until August 13, 2026.

##### Tepal Project

As a result of the acquisition of Valoro Resources Inc. (“Valoro”) in fiscal 2019, the Company acquired a 100% right, title and interest in mining claims located in the state of Michoacán, Mexico (the “Tepal Project”)

In 2009, Valoro and Arian Silver Corp. (“Arian”) entered into an agreement whereby Valoro was granted the exclusive rights to purchase Arian’s 100% interest in the Tepal Gold-Copper Project. Under the terms of the agreement, Valoro completed the purchase of 100% of the property, by delivering to Arian US\$3.0 million in staged payments. Valoro also assumed the balance of Arian’s obligations under the terms of an underlying property option agreement with Minera Tepal SA de CV (“Minera Tepal”) subject to a 2.5% Net Smelter Return royalty (“NSR”) and has completed staged payments to the underlying property vendor of US\$3,200,000.

During the year ended June 30, 2021, the Company entered into an option agreement to repurchase the existing 2.5% NSR on the Tepal Project from Minera Tepal, S.A. de C.V ( “Minera Tepal” ) over four years for total consideration of USD \$4.85 million. The payment terms are as follows:

	Option Payment	
January 10, 2021	USD	150,000 (paid)
June 16, 2021		150,000 (paid)
December 16, 2021		300,000 (paid)

December 16, 2022		550,000
June 16, 2023		550,000
December 16, 2023		600,000
June 16, 2024		600,000
December 16, 2024		1,650,000
	Total	USD 4,850,000

During the year ended June 30, 2021, the Company entered into an option agreement with Minera Tepal to acquire certain claims surrounding the Tepal Gold-Copper Project in Michoacán, Mexico. The Company will pay the annual concession fees on these claims until a production decision has been made, upon which time the Company will pay the vendor USD \$2 million for 100% ownership of the mining concessions.

#### 12. FINANCIAL AND CAPITAL RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;  
and

Level 3 – Inputs that are not based on observable market data.

The fair value of the Company's cash, receivables, accounts payable, and accrued liabilities, approximates carrying value, due to their short-term nature. Fair value of other assets approximates the carrying value as they are recorded at market interest rate. The Company is exposed to varying degrees to a variety of financial instrument related risks:

##### *Credit risk*

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations.

The Company's cash is held at large Canadian financial institutions in interest bearing accounts. The Company has no investment in asset backed commercial paper.

The Company's receivables consist mainly of GST/VAT due from the governments of Canada and Mexico. As such, the Company does not believe it is subject to significant credit risk.

##### *Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2022, the Company had cash of \$13,619,521 (June 30, 2021 - \$20,831,725) to settle current liabilities of \$899,313 (June 30, 2021 - \$1,271,741). The Company is considered to be in the exploration and evaluation stage. Thus, it is dependent on obtaining regular financings in order to continue its exploration and evaluation programs. Despite previous success in acquiring these financings, there is no guarantee of obtaining future financings. The Company's cash is invested in business accounts with quality financial institutions, is available on demand for the Company's programs, and is not invested in any asset backed commercial paper.

##### *Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

##### a) Interest rate risk

The Company has cash balances and interest-bearing investments and has no debt instruments that bear variable interest rates. The interest earned on the investments approximates fair value rates, and the Company is not at a significant risk to fluctuating interest rates. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its financial institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

#### 12. FINANCIAL AND CAPITAL RISK MANAGEMENT (Cont'd)

##### b) Foreign currency risk

The Company's operations are in Canada, the United States and Mexico. The international nature of the Company's operations results in foreign exchange risk as transactions are denominated in foreign currency.

The operating results and the financial position of the Company are reported in Canadian dollars. The fluctuations of the operating currencies in relation to the Canadian dollar will, consequently, have an impact upon the reported results of the Company and may also affect the value of the Company's assets and liabilities.

The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

Based on the Company's net exposures as at March 31, 2022 and assuming that all other variables remain constant, a 10% depreciation or appreciation of the Canadian dollar against the US dollar would result in a decrease/increase of \$42,171 in the Company's net earnings. Likewise, a 10% depreciation or appreciation of the Canadian dollar against the Mexican peso would result in a decrease/increase of \$196,463 in the Company's net earnings.

##### c) Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors the commodity prices of precious metals, and the stock market to determine the appropriate course of action to be taken by the Company.

Based on management's knowledge and experience of the financial markets, management does not believe that the Company's current financial instruments will be affected by interest rate risk, currency risk and credit risk.

##### *Capital management*

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its exploration and evaluation assets, acquire additional exploration and evaluation assets and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes components of shareholders' equity. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash.

There were no changes in the Company's approach to capital management.
